REVENUES

The following accounts constitute the operating revenues received by the City of Clintonville in the day to day provision of services including administration, police, fire and ambulance protection, maintenance of streets and parks, assessment, building inspection, and the maintenance of a municipal airport. The Revenues section is divided into five categories that encompass all facets of City operations. The categories are Administrative, Protection of Persons and Property, Public Works, Park and Recreation, and Airport. Some categories are divided into several sub-categories that address specific departmental functions or operations. Additional details of selected line items are provided in the case of non-specific accounts such as expenses and supplies. Each sub-category will include a brief explanation of the account, comments on the recommended budget figure, and a detailed spreadsheet outlining the proposed expenditures by line item number.

ADMINISTRATIVE

Explanation of Account: The Administrative Revenues include all revenues associated with operating a municipality that do not fall into the other General Fund Revenue accounts. The General Property Taxes listed below are only those needed to balance the General Fund account. Other areas in this budget that generate revenue through Property Taxes, can be found on Pages 33, 34, 35, 42, 43 and 45. Other accounts include various aids from the State, license fees, payments in lieu of taxes from the Housing Authority and Clintonville Utilities, Licenses, and City Building Rentals. Some of the changes in the 2017 budget include a \$2888 decrease in State Shared Revenues and a \$1,422 increase in State Transportation Aids. The Utility Department pays an annual rent for use of City Hall and a fee for accounts payable services. The operating tax levy for 2017 will decrease by \$27,174 from 2016. The use of general property tax for the 2017 budget is up by \$5108 over the 2016 amount to support City operations.

PROTECTION OF PERSONS AND PROPERTY

POLICE PROTECTION

Explanation of Account: The Police Protection Revenues include all funds collected through the operations of the Police Department. The Motor Vehicle Registration Account is the revenue the Department receives for selling the Wisconsin DMV Temporary, Regular, and renewal plates for all motorcycles, vehicles and mopeds. Beginning in 2011 the Department added licenses for ATVs, boats and snowmobiles. In the State Payment for Training Account, the City is reimbursed \$160 for each sworn officer for training. The Law and Ordinance Violation account is the City’s portion of all citations written in the City limits. The City restricts overnight parking from November 1 through March 31st from 2 A.M. to 6 A.M. These violations are the majority of parking violation revenues. The Law Enforcement Fees are miscellaneous revenues, such as, charges for police reports. However, we do not charge victims of crimes for copies of their own reports. Beginning in 2005 the Clintonville School District began to pay for one half the costs of the three crossing guards. This amount is \$6,694 and is in the Service – Other Municipalities Account. The remaining funds in this Service Account are \$5,000 from the City of Marion as Clintonville provides police dispatch services. Overall Police Revenues are protected to increase by \$4432 in 2017 over the 2016 budgeted revenues.

FIRE PROTECTION

Explanation of Account: The Fire Department Revenues include the City’s and a portion of the surrounding townships Fire Insurance Dues that are paid by the State. The Department's largest revenue, with the exception of grant funds, is the contractual fee paid by each township for fire protection services. The fees are based on a call volume and each municipality’s population. Included is revenue from vehicle accidents, fuel spills, and Wildland (DNR) paid calls. The City currently adds charges to taxes to help offset Fire Inspection cost. These costs are found on page 14. Fire revenues overall are anticipated to drop by \$14,576 in 2017.

BUILDING INSPECTION AND ASSESSMENT

Explanation of Account: The City contracts with outside firms for both Building Inspection and Assessment. For Building Inspection, the firm Independent Inspections completes all inspections and determines all fees. The fees set by the firm are divided with 80% staying with the contractor and 20% is retained by the City. The 80% the firm receives is the only compensation the company receives for providing the service therefore there is no actual expense to the General Fund for these inspections. The Zoning Appeals account is fees paid by property owners wishing to have the zoning of their property changed, a conditional use permit approval or a variance from the current zoning code. Building permit fees are expected to fall short of 2016 projections by \$4,500. This trend is expected to continue into 2017 with budgeted revenues for 2017 at a level of \$3,000 less than budgeted in 2016.

ACCT #	ACCOUNT DESCRIPTION	2014 ACTUAL	2015 ACTUAL	2016 BUDGET	ACTUAL TO 9/30	2016 ESTIMATE	2017 BUDGET

TOTAL	\$210,711	\$192,720	\$216,171	\$148,648	\$207,195	\$203,327

PUBLIC WORKS

Explanation of Account: The Public Works revenues include assessments, user fees, and fees charged for services provided by the Department. The Sidewalk and Curb and Gutter Assessments include the amount assessed to property owners abutting sidewalks, curb and gutter and driveway approaches in the City. A large replacement program took place in 2013 which is why the revenue was much larger than planned. Additional replacements were completed in 2014. No sidewalk replacement was scheduled for 2015 through 2017 except for sidewalk associated with the 2015 and 2017 Main Street reconstruction projects. The Interdepartmental Labor account is for equipment maintenance and repair services provided to the Fire Department, Water, Electric and Wastewater Utilities, Ambulance and Graceland Cemetery. The Public Charge for Services Account is revenue generated when the City provides a service to a private property or another municipality. The City Property Sales Account is revenue received from equipment that is sold due to replacement or no longer being needed. The \$1,000 of revenue budgeted from CAWS in 2017 is for snowplowing of the CAWS site that is provided by the Public Works Department. Overall revenues are projected to decrease by \$9,275 in Public Works for 2017.

PARK AND RECREATION

Explanation of Account: The City's Park and Recreation Department Revenues include all rentals and user fees for the Department. Fees have been increased gradually in 2005, 2009 and 2012 and have been approved by the Common Council to increase again in 2017. Even with the implemented fee increases the Parks and Recreation Department is expecting 2017 revenues to drop by \$10,304. This is primarily due to the fact that the municipal swimming pool will not be open in 2017.

AIRPORT

Explanation of Account: The City receives lease payments from all commercial and private hangar tenants which are in Airport Charges. The rental prices increased in 2012 by two cents per square foot for private hangars and various amounts for City hangars. In 2007 the City installed a new fueling system for airplanes and jets. The added revenue in Fuel Flowage Fees is due to the fact that the City now operates the fuel system and collects all the revenue. Previously one of the airport tenants ran the fuel system. The City makes a modest profit on each gallon sold and attempts to provide a very competitive price for its fuel to attract use of the airport both locally and regionally. The Fuel revenues and costs have been transferred to a separate account found on page 46 and have both been reduced substantially dating back to 2015 budget because very few jets are using the Clintonville airport to purchase jet fuel now that there are no longer any jet aircraft hangered or based at the airport.

EXPENDITURES

The following accounts constitute the operating and capital expenses incurred by the City of Clintonville in the day to day provision of services including administration, police, fire and ambulance protection, maintenance of streets and parks, assessment, building inspection, and the maintenance of a municipal airport. The expenditures section is divided into six categories which encompass all facets of City operations. The categories are General Government, Protection of Persons and Property, Public Works, Park and Recreation, Airport and Contingency. Each category, except Contingency, is broken into several sub-categories which address specific departmental functions or operations. Additional details of selected line items are provided in the case of non-specific accounts such as expenses and supplies. Each sub-category will include a brief explanation of the account, comments on the recommended budget figure, and a detailed spreadsheet outlining the proposed expenditures by line item number.

GENERAL GOVERNMENT

CITY COUNCIL

Explanation of Account: The City of Clintonville elects a ten member Common Council that is lead by the Council President. The City is divided into five aldermanic districts. Five members (one from each aldermanic district) are elected each April to two-year terms. The Council is charged with developing local policy through legislation and process, and directing the activities of the staff. The Council currently receives a monthly salary and \$25 per committee meeting up to 30 meetings per year. The meeting pay was increased by the Council as a part of the 2013 budget. In order to receive an increase in pay an elected official must wait until after his or her next election to receive the additional compensation. The meeting pay must be submitted for payment by the elected official whereas the salary is automatically paid. Some council members may choose to not submit a request for meeting pay, while others do. The Common Council expenses include the salaries of the Council President, Alderpersons, as well as payments of Municipal Dues, and expenses for travel and seminars. The training budget for City Council members has been increased from zero dollars to \$2,000 for 2017.

COMMISSIONS AND BOARDS

Explanation of Account: The City of Clintonville has a number of Committees, Commissions and Boards whose members are appointed by the Mayor and approved by the City Council. Some of the members of these entities are not Council members. A few of these Commissions, Boards and Committees include Park and Recreation, Police and Fire, Airport, Transit, and Plan Commission. The Commission and Board expenses include the money paid to the members of these organizations. Each member receives \$10 per meeting attended.

MAYOR

Explanation of Account: The City of Clintonville has an elected, part time Mayor that serves a two-year term. The Mayor is elected in April of every even year. The Mayor’s responsibilities include presiding over the Council meetings and acting as the Chief Elected Official. The Mayor assists the staff in carrying out the policy directives of the Common Council. The Mayor is available by appointment to meet with the citizens of Clintonville, staff and other elected officials to discuss concerns or policies and currently holds office hours in City Hall on Wednesday’s from 1:00p.m. to 3:00 p.m.. The Salary account includes a monthly salary and a \$10 per meeting up to 50 meetings per year.

ACCT #	ACCOUNT DESCRIPTION	2014 ACTUAL	2015 ACTUAL	2016 BUDGET	ACTUAL TO 9/30	2016 ESTIMATE	2017 BUDGET

CITY ATTORNEY

Explanation of Account: The City Attorney is responsible for providing legal services for the City. In addition, the City Attorney is responsible for providing representation in all cases involving civil and traffic issues. The City Attorney has always been a salaried position. The City also contracts with an Oshkosh law firm on an hourly basis for union negotiations and personnel issues. The Negotiation Expenses are found in “Other General Government” on Page 12. A new City Attorney was appointed by the City Council in May of 2016. The 2017 budget includes a \$5,000 raise in salary for the City Attorney.

ADMINISTRATIVE SERVICES

Explanation of Account: The Administrative Services budget includes the salaries and operating costs of the City’s Administrative Office which is responsible for ensuring the smooth day to day operation of all administrative functions and services. The full time City Administrator, City Clerk-Treasurer, Deputy Clerk-Treasurer and Administrative Assistant staff the Administrative Office. There are now three Utility office employees located in the City Hall complex. The funds for these employees are accounted for in the Electric and Water budgets with a portion of their wages also being allocated to the Sewer Utility through the annual audit process. The day to day operations of the City Hall and Utility administrative and customer service work is under the direction of the Clerk-Treasurer and the Utility Accountant positions. The goal of the Department is to execute all duties and responsibilities in a responsive, courteous, and cost-effective manner by ensuring that all administrative requirements are met in a timely fashion and that the day to day operations and affairs of the City are managed responsibly and professionally. Specific department responsibilities include:

- budget preparation and administration
- tax calculation and collection
- issue and administer licenses
- manage annual independent audit
- purchasing and billing
- grant administration
- preparation of reports
- bookkeeping and accounting
- long term financial and debt planning
- committee support
- administration of elections
- personnel and union contract admin.
- collection and investment of funds
- maintenance of official records
- insurance administration
- payroll preparation

CITY ADMINISTRATOR

Explanation of Account: The City Administrator is a full-time, salaried position whose office is located at City Hall. The position was created in 1990. The Common Council made a decision to operate with a part time consultant (minimum of 24 hours per week) as the City Administrator for 2015 through June 30, 2017, who will also help with recruitment and mentoring a new Administrator when hired. The Administrator oversees all of the day to day operations of the City including budgeting, personnel, and economic development. A portion of the Administrator’s wages and benefits is paid by the three utilities and the City’s TIF districts which are not reflected below.

ELECTIONS

Explanation of Account: The Elections accounts include all costs associated with holding Local, State, and Federal elections in the City of Clintonville. Elections take place at City Hall. Elections are administered and monitored by the City Clerk-Treasurer and Deputy Clerk/Treasurer and temporary paid Election inspectors. On Election Days polls are open from 7:00 a.m. to 8:00 p.m. The staff ranges from five to fifteen people per election day. The election worker's hourly wages is slightly higher than minimum wage. However the Chief Inspectors make a higher wage at \$10 per hour. The annual Election budget fluctuates more than most departments since even numbered years have more elections than odd numbered years. The Office Supplies Account is for miscellaneous supplies and the County charges to the City for the cost of ballot coding for local elections. It also includes the cost of maintaining and programming the required touch screen computer that provides assistance to handicapped voters.

ACCT #	ACCOUNT DESCRIPTION	2014 ACTUAL	2015 ACTUAL	2016 BUDGET	ACTUAL TO 9/30	2016 ESTIMATE	2017 BUDGET

	TOTAL	\$10,277	\$4,276	\$14,497	\$7,836	\$10,542	\$9,111

CITY HALL

Explanation of Account: The City Hall accounts include all costs associated with the operation of the City Hall complex. City Hall is a 13,600 sq. ft building. In 2011 the building housed the Administrative, Utility Billing, Police, Fire, Municipal Court and Mayoral offices. In 2012 the Police Department moved into the new Police Station at 35 South Clinton Avenue. City Hall and the Fire Department now share the vacated space. This has lowered some of the expenses for building costs. The building maintenance is overseen by the Park and Recreation Director. The Park and Recreation Director has reallocated the wages of the Department employees to more accurately reflect the time spent at each building. Overall the Department staffing will remain steady but some accounts will increase and some will decrease. As the building continues to age there is a higher likelihood that the costs of repairs and maintenance may increase. However the staff has worked to reduce cost by things like a lighting upgrade for energy and efficiency and other efforts to reduce the costs of utilities.

INSURANCE

Explanation of Account: The Insurance accounts include all costs associated with liability and property insurance coverage for all Departments that are within the General Fund. Health Insurance for employees is not included in this account and is budgeted for within the budgets for each City Department. The City's liability coverage has been increased from \$3,000,000 to \$4,000,000 per incident for 2017.

	TOTAL	\$3,647	\$3,621	\$4,987	\$3,757	\$3,757	\$7,200

OTHER GENERAL GOVERNMENT

Explanation of Account: Other General Government accounts include miscellaneous accounts not covered in other categories. Negotiations are the expense of bargaining union contracts. Previous to 2012 the City had three unions. Beginning in 2012 that number was reduced to one union with the Police Officers after State legislation and bargaining rights in Wisconsin changed drastically. A new police contract was approved for 2016 – 2018 so Labor Attorney expenses will only include specific labor issues where the City might require legal advise and direction. The Celebrations Account includes the City's donation to events such as the Clintonville's A's Independence Day Fireworks and the Memorial Day celebration. The Planning Account includes funds if anything unexpected comes up for business development or City property issues. This account is not funded for 2017. In addition, there is an account for City Hall's data processing maintenance which includes upkeep on hardware and software and the maintenance of the City's website. This account has been reduced from \$24,000 to \$12,000 for 2017 to reflect the purchase of professional time from Integrated Solutions, Inc. to manage the City's new computer system installed in late 2016. The Background Check Account began in 2009 as the City adopted a policy that in addition to all full and part time employees passing a background check, the City will run checks on all volunteers working with children. There is a per check charge from the State to run the report at \$7 each. The financial support for Graceland Cemetery is maintained at \$17,000 in 2017 with the goal of keeping the cemetery solvent as long as possible. Eventually in the future a transition plan will need to be developed and implemented for the City to take over management and maintenance of the cemetery that is located on City owned land.

GENERAL FUND - EXPENDITURES

PROTECTION OF PERSONS AND PROPERTY**POLICE PROTECTION**

Explanation of Account: The Clintonville Police Department provides the city of Clintonville with 24 hour police protection including Dispatch and lobby service to residents. The current staffing level allows two uniformed officers to be on patrol 24-7. The Police Department is responsible for protecting persons and property and for providing a safe living and working environment for residents and visitors. The Police Protection Salary account includes wages for administration, patrol and the clerk-dispatch. The city employs 11 full time officers that include the Chief, the Captain and the Police School Liaison Officer (PSLO). The PSLO wages and benefits are in a separate portion of the budget because it is partially funded by the school district. The police department has been short one full time position since 2003 and reduced their part-time positions from 5 positions to 4 in 2017 to cut overall expenses. The part-time positions allotted for the department provide shift coverage for vacations, compensatory time and sick leave to alleviate overtime expenses. There are 4 full time Clerk-Dispatchers who provide dispatching services for the Clintonville and Marion Police Departments and other city departments (Street Department, Utilities, Wastewater, and Park and Recreation depts). The City of Marion pays Clintonville \$5,000 per year for providing 24 hour dispatching services to their police department. The Clerk-Dispatchers also provide counter services to residents, including auto and truck registrations, and license plate renewals that will generate approximately \$18,000 in revenue to the city in 2017. Many other services are provided to the community through the clerk-dispatch positions. The Clerk-Dispatchers deal with approximately 800 to 900 walk-in customers and 2500 telephone calls for service each month.

ANIMAL CONTROL

Explanation of Account: The City maintains a dog and cat pound that is located at the Clintonville Wastewater Treatment Facility. The care of the animals is the responsibility of a part-time caretaker under general supervision of the Police Department and Wastewater staff. Dogs not picked up by their owners are adopted out in Clintonville, taken to the Shawano Humane Society, or euthanized. The 2017 budget includes Salaries, Heating Gas, and Operating Expenses. The Operating Expense Account is for food, bedding, supplies, and the costs associated with quarantine of an animal at a local veterinary office.

POLICE STATION MAINTENANCE

Explanation of Account: The Police Station accounts include all costs associated with the operation of the new Police Station. The building is located at 35 South Clinton Avenue and is approximately 6,000 square feet. In 2010 the building was donated to the City from WE Energies. The City received a USDA grant and loan to complete the remodeling work. In June 2012 the Police Department moved into the new Station. The building maintenance is overseen by the Park and Recreation Director. The Park and Recreation Director reallocated the wages of the Department employees to more accurately reflect the time spent at each building.

CROSSING GUARDS

Explanation of Account: The expenses include salaries, benefits and equipment, such as, stop signs. The three crossing guards work on North Main Street, and 8th Street at South Clinton Avenue and Hemlock Street to assist students crossing in that area. Beginning in 2005 the Public school system contributes half the cost of crossing guards. This revenue is shown in the Police Department General Fund Revenues.

FIRE INSPECTION

Explanation of Account: The Fire Inspection expenses include all costs associated with compliance with State law for inspection of all commercial and industrial properties. The City must inspect approximately 300 properties all of which must be inspected at least once per year with most requiring two inspections annually.

FIRE PROTECTION

Explanation of Account: The Fire Protection account includes the operating costs of the City of Clintonville Fire Department. The Department is managed by a Chief along with three Assistant (Battalion) Chiefs, Captains, and Lieutenants, all whom are part time. Fire protection is provided by up to 37 volunteer members who are responsible for responding and mitigating fire and rescue emergencies, conducting safety inspections, and advising the City and Townships on matters related to fire safety. The Fire Department provides services to the City as well as the townships, Bear Creek, Larrabee and Matteson. The townships contract with the City to help offset these expenses.

The Fire Department is committed to working with the community to provide education and inspections to reduce property loss and to increase safety to the citizens. In the event of an emergency the Fire Department shall provide responsive fire protection through modern suppression techniques to minimize damage and to save lives. Equipment funding supports the small equipment and components required to support this mission. The Fire Department will continue to look for grants which have successfully increased revenue over the past several years to support modernization of the equipment that now must be maintained to meet compliance. In addition to equipment purchases, the equipment must be tested, certified, and documented so as to stay compliant with the requirements that provide state revenue (2% insurance dues).

MABAS (mutual aid box alarm system) is a state mandated program to allow municipalities to utilize resources outside of their community without fees specific for that emergency however in exchange services from Clintonville can and will be expected to rise increasing the call volume and cost of operation compared to previous years.

BUILDING INSPECTION AND ASSESSMENT

Explanation of Account: The City provides services for Building Inspection and Assessment which includes issuing permits, conducting inspections, enforcing the zoning code, determining the value of properties for tax purposes and providing staff support to the City Plan Commission. The goal is to provide professional and cost-effective inspection services that will ensure that our homes and businesses are constructed correctly and with quality materials in order to preserve public safety and neighborhood property values. The City contracts with two firms, Independent Inspections, to provide Building Inspection services and Keystone Appraisals, to provide assessing services. The Health Officer responsibilities fall under the authority of the Public Works Manager. There is no expense for Building Inspection because the fee paid to the firm is 80 percent of the revenues collected. The City pays the firm nothing other than turning over the fees. The expenditures in the Contracted Services Account are the fees paid to the Assessing firm.

HEALTH INSPECTIONS

Explanation of Account: The City Health Inspections are performed by the Public Works Manager. The Inspections are done for purposes of compliance with property maintenance such as properly disposed of garbage, junk vehicles and habitable living units. The Public Works Manager works with the Building Inspector and Police Department to complete the more difficult or complex inspections. There are times when some minor expenses are incurred as a part of completing these tasks that frequently involve preparation and publication of proper legal notices and documents by the City Attorney.

AMBULANCE

Explanation of Account: The City is part of a Wis. State Statute 66.30 Agreement which allows for the creation of an ambulance service which serves Clintonville and eight surrounding municipalities. The service provides 24 hour Advanced Life Support Care and Transportation. There are approximately 50 employees, some are Paramedics and some are EMT's that are paid a nominal hourly wage for their time. Each municipality appoints one voting member to the Ambulance Commission. The Commission makes all decisions regarding the service. The Commission sets a budget and charges a subsidy back to each municipality based on its population. The 2017 budget decreases the ambulance subsidy by \$3,148 and reduces the Special Assessment by \$2,156 resulting in an overall savings to the City of \$5,304 for 2017.

PUBLIC WORKS

Explanation of Account: The Public Works accounts include all costs associated with operating the City Street Department. The Department's goal is to provide responsive and cost-effective maintenance of all transportation related public infrastructure and to respond to all citizen complaints and concerns in a courteous, professional, and timely manner. A Public Works Manager, one Crew Chief, one Lead Mechanic, one Mechanic Two, and two Heavy Equipment Operators and one Equipment Operator all staff the Public Works Department. In addition the Department hires two summer employees. All employees are non union.

Specific responsibilities of the Department include:

- snow plowing and salting
- storm sewer maintenance
- street sweeping
- tree and brush control
- support to other City Departments
- maintenance of roads and parking areas
- vehicle and equipment maintenance
- installation and maintenance of signs
- maintain Municipal Garage
- maintenance of Municipal Airport

PUBLIC WORKS MANAGEMENT

Explanation of Account: The Public Works Manager oversees all operations of the Department. The Public Works Manager is also the Airport Manager and City Health Officer.

MUNICIPAL SHOP OPERATIONS

Explanation of Account: The Municipal Garage is located at 160 Bennett Street. It houses all equipment and materials needed to service the street infrastructure. The Salaries Account includes 6 full time employees that work under the supervision of the Public Works Manager. It also includes 2 temporary employees that work full time in the summer months. The various accounts include funds used to keep the garage stocked with tools to make necessary repairs to the equipment and the shop. In addition, all uniforms and personal safety equipment are included.

MACHINERY

Explanation of Account: All machinery is kept at the Municipal Garage. The Department owns and operates such things as loaders, graders, dump trucks, stump grinders, a leaf vacuum, and a street sweeper. The Operating Expense includes such things as nuts, bolts, washers, and gaskets. The Machinery and Equipment Parts account includes major repairs for engines and transmissions. Since the Department provides support to other City Departments, these accounts also include parts for equipment and vehicles used by Police, Park & Recreation, Airport, Sewer, and Water & Electric. The revenue received for this service in on page 4.

STREET MAINTENANCE

Explanation of Account: The City maintains 38 miles of streets. The City receives transportation aids from the state and federal governments which in turn requires the City to maintain US Hwy 45 and State Hwy 22. However, the City does not maintain State Hwy 156. The Street Maintenance Contract Services account includes expenditures for hiring independent contractors to assist the Public Works Department with a limited amount of routine street maintenance. The Public Works Department has worked hard to do as much work as possible in-house to reduce expenditures for contracted work. The Operating Expenses include the purchase of materials to repair and maintain all City streets and right-of-ways, such as, gravel, asphalt, culverts, topsoil, and grass seed.

ACCT #	ACCOUNT DESCRIPTION	2014 ACTUAL	2015 ACTUAL	2016 BUDGET	ACTUAL TO 9/30	2016 ESTIMATE	2017 BUDGET
100-53300-30-2300	Contract Services	\$2,999	\$440	\$13,000	\$4,006	\$13,000	\$13,000
100-53300-30-3490	Operating Expenses	\$4,879	\$18,216	\$15,000	\$5,400	\$15,000	\$15,000
	TOTAL	\$7,878	\$18,656	\$28,000	\$9,405	\$28,000	\$28,000

SNOW AND ICE CONTROL

Explanation of Account: The City is responsible for winter maintenance of all 38 miles of streets, the Clintonville Municipal Airport, various alleyways and parking lots, and snow plowing at the Graceland Cemetery. Snow operations include two graders, two front-end loaders, six plow trucks, one snow blower and a mechanical broom. Two of the dump trucks are used to dispense salt and sand. The Contract Services account is used for hiring independent contractors for snow hauling and removal when necessary. With the declining number of employees in the department the weather has a lot of influence on the need to use contracted services for snow hauling but as is the case with street maintenance, the Public Works Manager does what he can to limit the use of contracted services for hauling snow. The Operating Expenses account is used to purchase all materials needed for snow and ice removal, such as, salt, sand, and deicers. The Department has also implementing the use of liquid de-icer as a proactive alternative to save money on the purchase of standard road salt.

	TOTAL	\$66,266	\$16,534	\$34,000	\$17,089	\$27,500	\$33,500

OTHER PUBLIC WORKS

Explanation of Account: The Other Public Works accounts include operations necessary for the upkeep of City property and infrastructure. The City owns five bridges that span the Pigeon River. The City has one dam located just east of Hemlock Street. The street lighting expense is paid to the Clintonville Utilities Electric Department for the maintenance and electricity for the city's street lights. In 2004 the City eliminated the service of curbside garbage and recycling pick up. The City continued its partnership with the townships of Larrabee and Matteson to provide a drop off facility for all residents to dispose of solid waste and recyclables as well as brush and compost. The three municipalities created the Clintonville Area Waste Service (CAWS) under Wisconsin State Statute 66.30. The agreement requires that the City pay a subsidy to CAWS to cover approximately 65% of its operational budget. The Solid Waste Account is for the City's cost of garbage removal with a private hauler. Residents that previously used the City's curbside service still have the option to hire a private contractor to pick up their waste or haul the items to the CAWS site. The City is in the process of obtaining proposals for a single private waste hauler to serve the City's entire residential garbage and recycling collection needs. This is expected to be implemented during the 1st Quarter of 2017.

PARK AND RECREATION

Explanation of Account: The City Park and Recreation Department is staffed by a Park and Recreation Director, a Park Foreman and two Park Laborers all of whom are full time. However, the Park Laborers also has janitorial and maintenance responsibilities at the Recreation Center, the Community Center, Police Station and City Hall. The goal of the Department is to provide a system of easily accessible and well maintained open spaces and parks which will provide recreation opportunities and enhance the quality of life for all City residents and visitors. The City has three community parks and eleven smaller neighborhood parks. In addition there are three boat landings near Hemlock and N. 12th streets, Pigeon Lake Wayside and at Pickerel Point. The Department is also serviced by as many as 50 temporary part-time employees to ensure that adequate staff is available to perform all functions. The Department provides many opportunities for people young and old to participate in recreational activities. There are a wide variety of classes and programs offered by the Department. The City owns and operates an outdoor pool in Bucholtz Park. There are five outdoor shelters which can be rented by the public.

PARKS

Explanation of Account: The Parks expense accounts include all costs associated with maintaining fourteen parks, three boat landings, 5 ball diamonds, a 9 basket Disc Golf Course, and 4 soccer fields, a Community Garden, the Veterans Memorial and a street forestry program. The Salaries account includes one Park Foreman, a portion of two Park Laborers, and a seasonal employee. The Director continues to refine the salaries and benefits associated with the Department to more accurately reflect the hours spent in each area of the budget. The Building Repair and Maintenance account includes the expenses to maintain 12 park buildings, such as, a park workshop, shelters, restrooms, and storage buildings. The Weed Control Account is now combined with Landscaping Expenses. The Disc Golf Course is funds donated in memory of community member James Simpson who tragically lost his life October 2012 who loved Disc Golf and had been part of the planning of the new course with the Director. This course was dedicated in August 2013. The City acquired new parkland by generous donation of the Simpson family (Seven Maples) in 2016 and is in the process of planning and evaluating how this park could best be designed and managed for the future benefit of the City's residents.

PARK AND RECREATION DIRECTOR

Explanation of Account: The Park and Recreation Department is managed by a full-time Park and Recreation Director whose office is located in the Recreation Center on East 12th Street. The Director's duties include overseeing the operation of parks, recreation, and recreation center, and community center, city hall building complex, Police Station, Veteran's Memorial, swimming pool, and forestry program. The Director's expenditures are in salaries, benefits, office expenses, training, and mileage. In 2016 10% of the Director's salary and benefits continues to be allocated to the operation of the Community Center.

RECREATION CENTER

Explanation of Account: The Recreation Center is a 21,500 square foot building located at 55 E. 12th Street. The building includes an office, gymnasium, stage, and numerous storage and activity rooms. The Park and Recreation Department holds many recreational programs at this facility. The Gas, Water and Electric expenses for this facility are expected to remain high for this facility although they have moderated somewhat based on lower natural gas prices than experienced in recent years.

SWIMMING POOL

Explanation of Account: The City's Municipal Pool at Bucholtz Park was closed for 2016 and will remain closed in 2017 due to fire damage that occurred to the pool bath house and equipment repair and replacement that is necessary to operate the pool. The City hired a consultant to evaluate the future needs of the pool and the Parks Department is waiting for the Swimming Pool Ad Hoc Committee to make recommendations and ultimately the City Council to make a long term decision regarding the future of the municipal pool.

AIRPORT

Explanation of Account: The City owns and operates a Municipal Airport on the southeast corner of the City. The Airport has two paved runways that are 4,600 and 3,299 feet long, and one 2,010 foot grass runway. The City owns five commercial hangars along the ramps that are leased by three different aviation related companies. All lease payments are made on a monthly basis. There is no City water and sewer at the site so the buildings are served by a private well and septic. There are approximately 23 private hangars that others have built on land leased to them by the City. The lease payments on private hangars are paid annually at an amount of \$0.13 per square foot. The Airport Manager tasks are the responsibility of the Public Works Manager.

CONTINGENCY

Explanation of Account: The Contingency is used to pay for items which arise throughout the fiscal year that are not planned in the previous year at the time the budget process is complete. The funds in contingency are needed in the event that something unexpected occurs that cannot wait until 2018. Due to tax levy limits and budget constraints this amount is important as it has been more difficult to budget for repairs and upgrades that are needed. These funds will only be used if prior approval from the Council is given for an unforeseen issue. The contingency fund was reduced to \$14,659 for 2017 because of budget limitations for this coming year.

CAPITAL FUND

REVENUES

Explanation of Account: The Capital Revenues include such things as property taxes, grants, and proceeds from long-term debt. The City funds its capital projects by borrowing funds every two or three years. The latest borrowing for capital projects took place in late 2016 to cover the years 2016 and 2017. The City borrowed \$1,715,578.98 to complete the funding of the 2016 and 2017 Capital Improvement Programs in addition to using \$512,692 of Capital Reserves. In addition the City will be using \$7,445,000 of Interim Financing through First State Bank in December of 2015 to construct the City's new wastewater treatment plant in 2017. This Interim Financing will be replaced by a long term U.S.D.A. loan at the end of 2017 or in early 2018 to pay back the Interim Financing.

EXPENDITURES

Explanation of Account: The Capital Improvements budget represents cash outlays made by the City of Clintonville for the purchase of equipment needed to support City operations. Projects related to the improvement of public streets, parks, and public buildings are also considered capital expenses, as well as any other expenses which are not directly tied to the operating costs. Capital improvements purchases are requested by the various City departments. The goal is to try to maintain a stable level of outlays, so the accounts do not vary widely from year to year, and that a balanced improvement and replacement schedule is maintained. However, sometimes this goal is difficult to obtain. The City Administrator has been encouraging the City staff and Common Council to give more attention to an annual or more regular sanitary sewer, water, and street reconstruction program for the City that addresses ailing infrastructure in the City. This will likely increase expenditures for Capital Projects over the previous several years but it will be done following the financial recommendations prepared by the City's Financial Advisor (Ehlers) in 2015 and updated in 2016 to insure that the City can handle the program financially without significant increases in its tax rate associated with the debt that is incurred to undertake these projects. These needs are also bringing to the forefront the need for the City to develop alternative revenue sources to fund their Capital Improvement needs.

ADMINISTRATION

Explanation of Account: The Administration Capital Expenditures account includes all major replacements and upgrades to the City Hall Administrative office and equipment. The Cemetery Account has no funding in 2017. In the past, the item budgeted from this account was to purchase additional land for the cemetery.

AMBULANCE

Explanation of Account: A new ambulance was purchased in 2015. The City's share is typically 45% of the total cost as there are 8 other municipalities that contribute to the cost through a Wisconsin State Statutes 66.30 agreement. There is also an assessment for the Operating Budget of the Clintonville Area Ambulance Service found on page 16. Since 2005 other ambulances have been purchased however it has not been necessary to assess the municipalities separately for these capital purchases until 2015. Beginning in 2015 the City has been budgeting \$6,653 annually as a subsidy toward a new ambulance that was purchased. This subsidy was expected to be required for five years (2019).

DEBT SERVICE

The Debt Service budget represents the payments made by the City to repay borrowed funds which are used by the City to finance major public improvements, development projects, and capital purchases. The Debt Service budget is funded through transfers from various contributing sources including the General Property Taxes, Tax Increment Finance Districts (TIF) budgets, and the Sewer Utility. In 2007 and 2011 the City completely revamped its future debt by refinancing. This was necessary to make sure that in the future years the City could make its debt payments. Since 2009 the City has been more aggressively repaying its principal payments.

REVENUES

Explanation of Account: The main funding for debt payments is the tax levy. However there are transfers from TIFs #3, #4, #5 and Fund Balance due to the fact that the General Fund advanced funds to some of the Districts for projects. TIF #3 has repaid some funds to the Debt Service for its portion of the debt which is shown in the Fund Balance line.

EXPENDITURES

Explanation of Account The Debt Service budget includes the principal and interest payments for the City's debt and also includes fees paid to the bank for processing of debt payments. The payments include funds due from eight separate borrowings. The 2016 payments included new debt incurred from the Wisconsin Trust Fund in the amount of \$796,894.50 to pay off the City's Unfunded Pension Liability owed to the State of Wisconsin. This was a priority recommendation of the City Administrator and the City's Financial Advisor (Ehlers). Debt service payments increased for 2017 reflecting the new \$1,715,578.98 of General Obligation debt the City issued in late 2016 for capital projects.

COMMUNITY CENTER FUND

Explanation of Account: The City owns a 5,200 square foot Community Center located at 30 S. Main Street. The building was built in 1995 with no public funds being used. The funding came from private donations and various City-Wide fundraising campaigns. The building has a kitchen facility, office, conference room, lounge, and one large meeting area that can be divided into three by movable walls. The Operating Expenses are the responsibility of the City. A part-time Nutrition Site Manager/Community Center Director works at the Community Center and has an office on-site. The City and Waupaca County cost share the wages for this position. The majority of Senior Citizen programs take place in the building. The building is also available to the public for rent. The Community Center Fees Revenue account includes a payment from the County for the Nutrition Site and rent paid by the users. The Expenditure accounts include the City's personnel costs, utilities and maintenance costs, and senior citizen programming expenses. The Salaries Account also includes time for janitorial services. The Community Center Rental fees were increased in 2012. Also beginning in 2012 fees have been charged to the seniors to participate in all events.

LIBRARY FUND

The current Library is a 14,132 sq. ft. building located at 75 Hemlock Street. The Library is managed by a full-time Library Director. The support staff includes a full-time Children's Librarian, one full-time support staff, eight part-time support staff, and two part-time maintenance people. The library is open 56 hours per week year round. The library has 285 patrons per day use the 61,132 items in the collection, get help with questions, attend programs and meetings or using the Internet. There were around 9,000 sessions on the Library's public internet access computers and over 8,000 sessions on the wireless in 2014. In addition people call or email every day and the library website is used 2,800 times each month. The Library offers over 300 programs a year for children, teens, and adults. A Friends of the Library group was established in 1985 and continues to be an active part of the Library.

REVENUES

Explanation of Account: The Library Fund Revenues are all funds collected in the maintenance and operation of the municipal library located on Hemlock Street. OWLS (Outagamie Waupaca Library System) subsidy comes from Outagamie, Waupaca and Shawano county governments. These counties tax all municipalities located in the County that do not operate a library. Those county taxes are then transferred in the form of a subsidy to the municipalities operating libraries. The subsidy is calculated based on numerous factors. The County Board is committed via its five year plan to increase the percent it charges to the County residents that use the library that live outside the City. In 2014 the County reached the goal of its five year plan to assess 100% of what it can charge to the taxpayers in the surrounding areas. For many years State Law mandated that funds allocated to a public library must stay consistent over a three year period. If there was too great a fluctuation, the County funds could be taken away from the City. In 2011 the Wisconsin Budget Repair Bill eliminated that Maintenance of Effort, three year average requirement. From 2012-2014 fluctuating Property Tax amounts were partly due to necessary budget reductions and levy limits being placed on Wisconsin municipalities. For 2017, the OWLS subsidy is increasing by \$15,266.

TAX INCREMENTAL FINANCING FUND

The City has five active Tax Increment Finance Districts (TIF). TIF is used by Wisconsin municipalities to promote the development or the redevelopment of unimproved or blighted areas. After designating an area as a TIF District, the City installs any necessary infrastructure, such as, roads and public facilities that are needed to facilitate development. At the time the district is created, the property tax base within each district is frozen. The increment taxes resulting from increases to the property tax base are used to pay back debt including interest which was incurred to provide these improvements. Until October 2004, except for certain exceptions under State Statutes, the Statutes allowed ten years after the creation date for a TIF District to incur project costs eligible for financing from tax increments. The law change to allow a longer expenditure period. This reopened the TIF #3 and #4 spending period. The TIF District Project Plans have a provision that allows the City to charge reasonable allocations of administrative costs including but not limited to employees salaries and associated benefit costs to the Tax Increment Districts to implement each TIF District Project Plan. Beginning with the 2015 budget 10% of the City Administrator's salary and benefits will be charged to the TIF Districts and 5% of the City Clerk/Treasurer, Public Works Manager and City Attorney's legal expenses will be annual charges to the TIF Districts that have active expenditure periods and are producing positive tax increment.

Tax Increment Districts #3, #4, #5 and #7 are scheduled to be closed out in May of 2017. This will give the City the capacity to create new Tax Increment Districts as needed throughout the City.

TIF #3, that is part of the Industrial Park and the residential area developed by the Nielson family, was created in 1992. The tax increment can pay back all costs until 2018.

TIF #4 was created in 1994 to facilitate a redevelopment of the blighted area known as the Borden Plant on Sixth Street. There is a large commercial lot on the South side of Highway 45 which may someday be developed. All costs must be repaid by 2020.

TIF #5 was created in 2002, as a single parcel district in a blighted area. The site is located where the old Clintonville Hospital was located. The building will be renovated into a senior independent and assisted living retirement community called the Angelus Retirement Community. On January 1, 2015 this assisted living facility was granted tax exempt status requested by the facility's ownership group and the City stopped receiving property tax payments from the development to pay off the debt that the City issued to support the development of this project. The City is currently assessing its legal recourse regarding this issue and the potential of taking legal action to recover the funds that are still owed to the City by this development project.

TIF #6 was created in 2003 and TIF #7 was created in 2004, both were created as blight districts. The site is located at the site of the one of the City's larger employers, Seagrave. In 2006 the company built a 130,000 square foot manufacturing facility.

All TIF Districts that repay their project expenses prior to the end of the TID must terminate the TID early. Due to the nature of this fund, each year will not always balance. The intent is that over the long term the increased revenues brought in will equal the expenditures.

REVENUES

Explanation of Account: The TIF Revenues include the tax increment collected from each district. The goal of TIF is for the value of the properties to increase to create additional revenue each year. All five districts have continued to increase in tax increment revenues. The Long Term Debt was borrowed in 2002 and 2004 by the Redevelopment Authority. The RDA paid for the new improvements made in 2002 and 2005. In 2011 the City had a lease with the RDA that the City would pay the taxes generated in TIF's #3, #5, #6 and #7 to the RDA. This income will then be used to pay back the debt incurred in 2002 and 2004. In 2011 there was an opportunity to refinance all the debt except the TIF #7 work. This saved \$400,000 in interest but did move the debt into the Debt Service fund.

EXPENDITURES

TIF #3

In 1998 and 1999 TIF #3 Expenditures included a project in the North Industrial Park that included new water mains, new sewer main, and new roads. The 2002 budget included the funds to add more streets and utilities in the industrial park north of Highway 156, extend Industrial Avenue to the south and improve, with grading and fill, some lots in the north park. The TIF #3 incomes are now being used to pay back the debt incurred over the past 14 years. In 2004 the State law changed which allowed the City to continue to spend money in TIF #3. Most of the more current funds spent are for development incentive payments which assist businesses with construction.

TIF #4

The funds for 2010 fall under the new TIF law that allows communities to spend money outside of a District as long as it is within a ½ mile of the TIF boundaries. The estimated \$450,000 was used to place a fourth part of the intersection where Highways 45 and 22 split. The funds to construct this new section of East Madison Street were necessary to facilitate a Walgreens development in 2011. The City will be looking at additional ways to improve the development along the corridor of Highway 45 that leads to Marion. In 2011 Klein GM announced that it would build a new auto dealership and sell the 45-22 lot to Kwik Trip. The City agreed to pay for improvements of utilities to the new Klein lot using TIF dollars.

TIF #5

In 2002 the City created TIF #5 in order to facilitate development of the old Hospital Building into the Angelus Retirement Community. This project included transferring \$1.3 million from the City to the developer. The project began in June 2002 and was completed in the fall of 2003. The expenses are the repayment of the debt service to fund this project.

TIF #6 and #7

In 2003 the City created this TIF #6 to facilitate the creation of a new 130,000 square foot manufacturing building. The construction began in mid 2006 and was completed on September 23, 2006. All remaining payments were made in 2006. TIF #7 was created in 2004 to work in conjunction with TIF #6 to facilitate the expansion at Seagrave due to State law changes. The expenses are the repayment of the debt incurred for the project.

MISCELLANEOUS FUNDS

POLICE SCHOOL LIAISON OFFICER

Explanation of Account: The City of Clintonville and the Clintonville Schools share expenses for the cost of a Police School Liaison Officer (PSLO) who works full time in the public schools during the school year. Due to the fact the PSLO works 75% of the year in the schools and is required to take his vacation time during summer break to avoid being off during the school year, the Police Department gets very little use of this position in a patrol position during summer break. Midway through 2015, the Clintonville Public School District agreed to fund 75% of the position rather than the 50/50 agreement that had been in place since 1995. This account reflects the reduced amount incurred by the City to help fund this position in 2016.

REDEVELOPMENT AUTHORITY

Explanation of Account: The Redevelopment Authority was created by the City in 1994 as set forth by Wisconsin State Statutes. There are seven members on the Authority. Their responsibilities include assisting with financing, grants, and loans for development and redevelopment, and develop strategies for the City’s industrial and business needs. Once the budget is adopted by the City Council, the Authority has the authority to spend the funds. In 2002 the Redevelopment Authority borrowed funds to complete all of the TIF #3 and #5 projects included in the 2002 budget. This includes construction work in the industrial park and the funds given to assist in the remodeling of the old Clintonville Hospital Building into a senior housing retirement complex. In 2004 the same arrangement was made for TIF #7 Seagrave’s expansion. In 2011 an opportunity to refinance this TIF #3 and #5 debt provided a savings of almost \$400,000 in interest payments. The Lease Revenue Bonds had to be turned into General Obligation Debt. Although there are limits on the amount of GO Debt a City can have it was determined to be worth the savings to have a higher debt capacity ratio for a few years. Therefore the debt that was previously in the RDA for TIF #3 and #5 can now be found on Page 33 in the Debt Service Fund. The RDA still has a lease and debt with TIF #7. This can be found below. The other item that the RDA continues to contribute towards in the City’s membership in the Waupaca County Economic Development Corporation.

REVOLVING LOAN

Explanation of Account: In February 1988 a Clintonville business received a loan from the State of Wisconsin Department of Development. Although the business received a loan from the State the money was a grant to the City. The business paid the loan back to the City. As these funds were repaid, a revolving loan fund was developed. This money is used to assist new and expanding Clintonville businesses with needed funds. New loans will only be granted if the borrower is able to obtain other funds from lending institutions. Typical loans do not exceed 50% of total borrowing package and the City does not typically borrow more than \$50,000 to any one business. Recommendations for loans are made by the Revolving Loan Committee and approved by the Common Council. Currently, there are 9 loans with outstanding principal and interest payments. These monthly payments are made to the City and deposited in the Revolving Loan Fund. Each month approximately \$2,803 in payments are made from the existing businesses. The total outstanding principal owed to the fund is \$163,327. There is \$313,899 available to issue new loans. This amount does not include the interest the loan recipients pay.

TRANSIT

Explanation of Account: The Truck City Taxi was established in 1993. A five member Transit Commission oversees all operations of the taxi service. The Commission contracts with Truck City Taxi to provide shared ride taxi service in the Clintonville area. The Commission owns three taxis and a radio system, which is leased to Truck City Taxi. City, State, and Federal funds are all used to provide this service. The City property tax commitment to operate this service for 2017 is \$21,724. The Operating Expense account includes the monthly payment made to Truck City Taxi. The Commission took delivery of its first ADA van in October 2003 and eliminated its oldest taxi from service. A new taxi vehicle was purchased in 2009 and a second was purchased at no cost to the City in 2010 from the Federal Stimulus Funds. Although a capital purchase has not been needed for a number of years any future payments would be budgeted for in the Capital Fund on page 32. There was a fairly large reduction in the amount of funding from the State and Federal governments which caused the City's portion of the funding to increase from 2011 to 2012. The Taxi Company and Transit Commission has made great efforts to cut costs where possible with things like insurance coverage, fewer hours for drivers, elimination of advertising and a 2013 increase in rider rates. In late 2012 the Transit Commission was required to bid out the service to any interested vendor. The bid was awarded to Truck City Taxi, the past vendor who was providing the services. Although the costs have increased this is still a valuable service that is provided to our area residents.

AIRPORT FUEL

Explanation of Account: The Airport Fuel Fund was established in 2009 after a new fuel system was installed in 2007 at the Clintonville Municipal Airport. The City is responsible to purchase all fuel at the airport. There is a credit card system which pilots visiting the airport can purchase fuel 24 hours a day, 7 days a week with a self-serve pump. It is the responsibility of the Public Works Manager to manage the system by watching fuel prices to make purchases at the best prices. The City sets the fuel prices at the airport pump with the philosophy of making a small profit while keeping fuel prices regionally competitive to draw airplane and small jet traffic to the airport.

VETERAN'S MEMORIAL

Explanation of Account: The City dedicated a new Veteran's Memorial on Main Street October 2009. The construction of the memorial was done through fundraising. The Ad Hoc Committee that was in charge of designing and constructing the memorial has now been dissolved and a new Veteran's Memorial Committee that reports to the Council on things that need to be completed. The Committee is chaired by a Council Member and includes 3 veterans. An advisor to the Committee and Committee member is the Park and Recreation Director as he is responsible for the care and maintenance of the facility. All remaining funds that were from the fundraising campaign were given to the City to help pay for the maintenance. In addition people can still donate money to have bricks engraved on the wall or the sidewalk. The revenues and expenses for 2017 are below. The Veteran's Memorial Committee has plans to add additional wall sections to the memorial and is in the process of fundraising to make this possible. The project will require approximately \$70,000 to complete. In any given year when there are additional funds raised above the annual maintenance expenses those funds will remain with the Veteran's Memorial.

K-9 UNIT

Explanation of Account: The Police Department took delivery of their new K-9 dog the first week of November, 2014, with SGT. Chris Wendorf as the handler. The dog and handler completed training in April of 2015 and this team has been working extremely well. Officers and staff continue to conduct fund raising efforts and search for donations to fund the K-9 program.

RESTRICTED DONATIONS

Explanation of Account: The Skateboard Park and Dog Park are two future City projects that have been approved to be constructed on the condition tht they can be fully completed with donations and will not require the use of City tax funds.

The Skateboard Park was completed in the summer of 2016 through the generous donations and assistance of the Lions Club and additional assistance from Kersten Excavating with site preparation.

The Dog Park project is proposed to be constructed on City owned property in the southeast part of the City near the CAWS site. The Common Council has approved the use of the property for the Dog Park provided donations can be raised to fully fund all of the infrastructure costs necessary for the facility.

CLINTONVILLE WASTEWATER UTILITY FUND

The Clintonville Wastewater Utility (CWWU) existing facility was constructed in 1988. The facility was designed and built to protect the health and welfare of the citizens of Clintonville and surrounding areas. The Water and Wastewater Manager oversees all operations of the Utility. In addition, there are three full-time Wastewater Operators that are all non-union employees. The facility is located at 350 East Fifteenth Street. The treatment facility consistently removes 95-100% of pollutants that would otherwise enter the Pigeon River. The facility processes approximately 600,000 gallons of water per day or 219,000,000 gallons per year. The facility recycles approximately 1,000,000 gallons of biosolids per year. The wastewater treatment plant is in the process of a major upgrade and reconstruction that will be completed near the end of 2017 at a cost of approximately \$7,300,000.

REVENUES

Explanation of Account: CWWU is not regulated by the Public Service Commission of Wisconsin, which is different than the Water and Electric Utilities. Clintonville's Common Council sets the rates for CWWU. CWWU (dba Clintonville Utilities) charges to sewer customers include a fixed monthly charge and a volume charge. Based on a study performed by Ehlers, the last sewer rate adjustment was in April of 2016. A second rate adjustment is planned to be implemented in February of 2017. Both of these rate increases are associated with paying for the costs of upgrading the wastewater treatment plant. Clintonville Utilities Water Utility performs meter reading, billing and collections for CWWU. CWWU pays the Water Utility to provide these services.

EXPENDITURESFACILITY

Explanation of Account: Facility expenses are all costs associated with operating and maintaining the treatment facility. Although a portion of salaries, utilities, vehicles and equipment costs can be attributed to the Collection System and Lab, all costs are included in the Facility budget. The DNR Replacement Fund account is funds set aside for maintaining existing equipment at the facility and lift stations. The fund is required by the DNR. Lastly, other items in the 2017 budget include continuation of a part-time safety coordinator through MEUW and other miscellaneous supplies.

COLLECTION SYSTEM

Explanation of Account: The Collection System expense accounts are all costs associated with the operation and maintenance of the approximately 30 miles of sewer main and 10 lift stations. In addition, costs include sewer main rehabilitation.

LAB

Explanation of Account: CWWU operates a State of Wisconsin certified laboratory and performs all of its own tests for permit requirements with few exceptions which include: ammonia, heavy metals and toxics. Costs for any necessary outside testing are included in the Contracted Labs account. In addition, the lab performs work for a few surrounding communities which generates revenue for CWWU.

CLINTONVILLE ELECTRIC UTILITY FUND

The Electric Utility has seen growth and change in its 100 more years of existence and currently includes 34 miles of overhead electric line and 7 miles of underground electric line within the City limits, 24 miles of overhead line outside of the City and four substations: the Industrial Substation, the Downtown Substation, the East Madison Substation and the Ash tree Substation. In 2014 the peak electric load for the Clintonville system was 21.815 megawatts which served 2785 customers. The Electric Utility has five employees that spend 100% of their time working for the Electric Utility including the Electric Utility Manager, a lead lineman (foreman), two journeyman linemen and a meter technician. Other Utility employees that split time between the electric, water, and wastewater utilities include the Utility Accountant, a Billing Specialist and a Customer Service Representative. In 1984, the City of Clintonville and the City of Shawano joined forces to create a joint action agency, Badger Power Marketing Authority (BPMA) as a result of a study which concluded that the two cities could purchase wholesale power for less cost as a whole, than if each entity purchased wholesale power individually. In 2000, Clintonville and Shawano(as members of BPMA) joined Great Lakes Utilities(GLU) to further hold down costs by purchasing power with 11 other communities. In 2012 the Ash tree Substation which is located in the Northwest quadrant of the City on the Clintonville High School property was constructed. This new substation greatly enhanced the power delivery service in the area. The Electric Utility is regulated by the Public Service Commission of Wisconsin.

REVENUES

Explanation of Account: The Electric Utility charges to electric customers include a fixed monthly charge, volume charges and other charges, for example taxes and Public Benefits fees. The last adjustment to electric rates was implemented in 2012.

CLINTONVILLE WATER UTILITY FUND

The Water Utility has seen growth and change in its 100+ years of existence and currently is made up of: one water tower; one water treatment facility; 5 active wells; 291 fire hydrants; 906 distribution valves; 203,383 feet of water main and 2,354 service laterals which serve water and public fire protection to over 1,977 customers. The water system pumps approximately 442,110 gallons per day or 161,381,000 gallons per year. The human resources to run the plant and distribution part of the Water Utility includes two employees that spend 100% of their time working for the Water Utility: a water supervisor and a certified water operator. Other managerial and office employees who split their time between the Water Utility and the other utility departments are the Water and Wastewater Manager, the Utility Accountant, a Billing Specialist and a Customer Service Representative. The Water Utility is regulated by the Public Service Commission of Wisconsin.

REVENUES

Explanation of Account: The Water Utility charges to water customers include a fixed monthly charge, a volume charge and other charges, for example, Public Fire Protection. The last adjustment to water rates was a two-phased adjustment that was implemented back in 2008 and 2009.

EXPENDITURES

OPERATING

Explanation of Account: The Water Department Operating expenses are all costs associated with operating and maintaining the water system. Large infrastructure improvements are budgeted in the capital section of this budget. The objective of the operating portion of the budget is to maintain the water utility in an efficient, compliant and safe manner. The 2017 budget includes continuation of a part-time safety coordinator position. The goal of the 2017 expense portion of the budget is to continue to maintain the water utility in an efficient and compliant manner.
